

IAF and Foundation FSSC 22000 MLA AGREEMENT

1. Introduction

1.1 The **Foundation FSSC 22000** is the scheme owner of the world-wide operated FSSC 22000 Scheme, from now on referred to as “the Foundation” which has sought and received endorsement of their FSSC 22000 scheme version 5 , from now on referred to as “the Scheme” as a sub-scope of the IAF MLA in accordance with IAF PL3 and this Agreement.

1.2 The Scheme requires Certification Bodies (CBs) operating in its FSSC 22000 Scheme version 5 or higher to be accredited by an Accreditation Body (AB) that is a signatory to the IAF Multilateral Recognition Arrangement (MLA) with a main scope of management system certification (IAF MLA signatories).

1.3 The Scheme sets voluntary standards for the certification of the field of food safety and quality management system certification. The Scheme outlines the requirements for the audit and certification of food safety management systems (FSMS) or FSMS and Quality Management Systems (QMS) for organizations in the food supply chain. The Scheme is owned and managed by a not-for-profit foundation based in Gorinchem, The Netherlands. The Scheme has been benchmarked and recognized by the Global Food Safety Initiative (GFSI) since 2010. Currently, there are around 24,000 FSSC 22000 certificates registered worldwide accessible on its website www.fssc22000.com.

1.4 The Foundation contracts at the time of this Agreement with over 130 CBs Worldwide under the Scheme, the supervision of which is carried out by the ABs that are IAF MLA signatories.

1.5 The FSSC 22000 certification process is performed by more than 1,500 auditors. Requirements for the professional competence of personnel auditors are defined in Part 4, section 3 of the Scheme requirements for Certification Bodies.

1.6 The Foundation delegates the responsibility of supervision of the CBs it contracts with to the corresponding IAF Accreditation Bodies, noting that harmonization of criteria applied by the different ABs is increasingly important to ensure consistency of that supervision.

1.7 The Scheme provides the standard and framework for independent, recognized 3rd party management system certification of animal farming, food manufacturing, production of feed, biochemicals, packaging (materials), transport & storage, catering and retail/wholesale organizations based on ISO/IEC 17021-1 and ISO/TS 22003.

1.8 The **International Accreditation Forum (IAF)** is the world association of conformity assessment accreditation bodies in the fields of management systems, products, services, process, persons, validation and verification and other similar programs of conformity assessment.

1.9 IAF is responsible for the harmonization and continuous improvement of the accreditation practices of its members with the ultimate goal to ensure sound technical competence of accredited CBs and V&VBs (Verification and Validation Bodies) and to support its IAF MLA.

1.10 The IAF MLA is established and maintained on the basis of the requirements of ISO/IEC 17011 through regular peer evaluations and is the tool by which IAF contributes to the elimination of technical barriers to trade and to promoting the free circulation of certificates issued by accredited CBs.

A list of IAF ABs that have agreed to implement the MoU shall be maintained on the Foundation website.
